karen.bates@orionengineers.com

Please join us for an overview of basic concepts and principles of Airport Layout Plans (ALPs). You will learn about their purpose, how they are used as a planning tool, and how ALPs are developed, reviewed and justified. The 45-minute presentation includes time for Q&A. **We look forward to your participation!**

Orion is a general civil engineering design and construction management firm. Headquartered in Honolulu, Orion is known around the country for its airport and aviation expertise.
