

“Successfully Transitioning from College to a Full-Time Career”

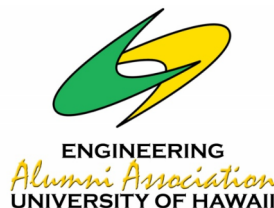

December 12, 2024: 4pm – 5pm

Who is this for? Recent graduates who are navigating a new career, a soon-to-be graduate, or even mid to late career engineers who are recruiting and/or mentoring new engineers.

How is this relevant? This is an opportunity to hear experiences and thoughts from recent (2020) graduates who just started their careers as well as mid and late career engineers who started their careers under different environments and circumstances from that of today.

Topics to be discussed:

- Transitioning to today’s “new” work environment
- Adjustments made when starting your career (recent graduate perspective)
- Advice to new engineers (from mid/late career engineers’ perspective)
- Key factors in selecting your career path

ENGINEERING ALUMNI ASSOCIATION
UNIVERSITY OF HAWAII

presents the first of the
