**Job Title**: LLM/AI Engineer (Part Time / Contractor)

**Company**: GenPF.ai

**Location**: Remote

**About Us**:
GenPF.ai is an innovative startup revolutionizing the asset management industry by developing AI-driven solutions tailored for large asset managers overseeing portfolios exceeding billions of dollars. Our mission is to enhance decision-making and operational efficiency through advanced artificial intelligence applications.

**Position Overview**:
We are seeking a skilled LLM/AI Engineer to join our remote team. In this role, you will design, develop, and deploy AI applications utilizing large language models (LLMs). Your expertise in frameworks such as LangChain and LangGraph will be crucial in building sophisticated AI agents that address the complex needs of large-scale asset management.

**Key Responsibilities**:
• Design and implement AI applications leveraging large language models to solve real-world problems.
• Develop and maintain workflows using LangChain and LangGraph to create stateful, multi-agent systems.
• Collaborate with cross-functional teams to integrate AI solutions into existing products and services.
• Optimize and fine-tune language models for specific use cases to enhance performance and accuracy.
• Stay abreast of the latest advancements in AI and machine learning to ensure our solutions remain at the cutting edge.
• Troubleshoot and resolve issues related to AI model performance and deployment.

**Qualifications**:
• Current student in a Bachelor's or Graduate degree program in Computer Science, Artificial Intelligence, or a related field.
• Proven experience in developing applications with large language models.
• Proficiency in Python and familiarity with AI frameworks such as LangChain and LangGraph.
• Strong understanding of / Prior Coursework in machine learning principles and natural language processing techniques.
• Experience / Prior Coursework with stateful graph-based AI agent frameworks.

- Ability to work collaboratively in a fast-paced startup environment.
- Excellent problem-solving skills and attention to detail.
- Strong communication skills, both written and verbal.

**Preferred Qualifications**:
- Experience / Prior Coursework with AI agent frameworks and building stateful, multi-actor applications.
- Familiarity with / Prior Coursework in AI orchestration frameworks and their applications in complex workflows.
- Knowledge of integrating AI solutions with external tools and APIs.
- Understanding of human-in-the-loop AI systems and their implementation.

Join GenPF.ai and be a part of a team that's shaping the future of AI technology in asset management!

**How to apply**: Email resume to sutanto@genpf.ai
